

BBSRC INTERNATIONAL SCIENTIFIC INTERCHANGE SCHEME GUIDANCE NOTES

BBSRC is pleased to invite applications to the International Science Interchange Scheme (ISIS). Applications are invited from current BBSRC research grant holders and researchers employed at National Institutes of Bioscience who are in receipt of BBSRC research funding. There is no deadline for applications to ISIS; however we require a minimum of six weeks to process applications. All applications should be submitted through JeS.

SCOPE

In the past ISIS has provided around 25 awards each year, typically up to £5k each. These awards are designed to help scientists add an international dimension to their BBSRC funded research by making and establishing new contacts with international counterparts in topics relevant to current BBSRC strategic priorities. This scheme is open to proposals involving collaborations with any other country, although BBSRC is particularly interested in promoting further links with the **USA, Canada, Brazil, EU Member States, Japan, China, India, Australia and New Zealand**. Funding is available for international travel for 3 major types of collaborative activity:

- **Short Term Travel Award:** Normally intended as a first contact-type meeting. Allows researchers to travel outside the UK to initiate collaboration or prepare proposals with partners for international programmes (e.g. EU Framework, Human Frontier Science Program).
- **Long Term Travel Award:** For researchers to travel outside the UK for periods of up to 12 months.
- **Access Award:** For stays of up to one month in another country to undertake a specific piece of work, access facilities not available in the UK or gain access to new techniques or materials, which would be of benefit to the BBSRC project or the UK research team.

Collaborative activities are not limited to the PI and we encourage the involvement of early career researchers. Students however, are not eligible for travel as travel funds are provided within their studentships.

Funding is limited to travel and subsistence costs only for UK scientists and can **not** be used to fund:

- Salary costs
- Consumables
- Items of equipment
- Other research costs

APPLICATION PROCESS AND ASSESSMENT CRITERIA

There is no deadline for applications to ISIS; however we require a minimum of six weeks to process applications. All applications must be made through the Research Councils Joint Electronic Submission System (JeS). In addition to the JeS proforma, the application should also include the following attachment:

Case for Support

The case for support should be a maximum of 3 sides of A4 written in single spaced Arial, Helvetica or Verdana typeface font size 11 and margins must not be less than 2cm. It **must** contain the following sections:

- Dates and duration of the visit (if it is not obvious from the 'Project Details' section). Where exact dates are not yet known, please give indicative dates.
- The main scientific objectives.
- Summary of previous contacts or links with proposed partners.
- Activity proposed. Please state the person/s that will be making the visit and the proposed activities.
- Post ISIS support. Indicate how you envisage the collaboration will be taken forward, post ISIS support. If you intend to apply for a joint research grant, please give the specific programme line and timing of call at which the proposal will be targeted.
- Statement of added value. Indicate the benefit of the proposed collaboration to UK science and in particular, the relevance to your current BBSRC funding.

Additional Documents

CVs and publication lists are not required; however applicants may wish to include any particularly pertinent recent publications. A letter of support (maximum 1 side of A4) from, for example, the proposed collaborators and a short proposal covering letter may also be included but are not mandatory.

Costs

Applicants should be made at **current costs** in accordance with subsistence and travel regulations at the applicant's Institution. No indirectly incurred costs can be applied for under this scheme; consequently Full Economic Costing (FEC) is **not** applied to these awards. Applicants should therefore apply for 100% of the cost of the activities which they wish to undertake.

Detailed guidance on how to complete the JeS application process can be found in **Annex 1**.

Assessment criteria

Applications will undergo internal assessment by BBSRC. Internal assessment of these proposals allows partnering award applications to be processed swiftly and in proportion to the size of the awards. An internal review process can be applied as the applications are based on awarded BBSRC grants which have undergone robust peer review. Proposals will be assessed against the following criteria:

- The value added to BBSRC research by developing an international dimension
- The reasons for choosing this group and why at this time (anticipated unique benefits?)
- The benefits likely to accrue from the collaboration
- How the collaboration will be taken forward post-ISIS support
- The strategic relevance and pervasiveness of the collaboration (i.e. the extent to which the collaboration will benefit more than one UK group)

ELIGIBILITY

Applications **must** be made by the Principal Investigator (PI) who is both eligible for BBSRC funding and currently in receipt of BBSRC research funding through one of the following mechanisms:

- As a Principal Investigator on an active BBSRC responsive mode grant.
- As a Principal Investigator on an active BBSRC initiative grant, provided that they are currently eligible to apply for responsive mode grants.
- As a Project leader at one of the BBSRC institutes (Rothamsted Research, The John Innes Centre, The institute of Food Research, The Genome Analysis centre, The

Pirbright Institute, The Brabraham Institute, The Roslin Institute and IBERS – Aberystwyth University).

- As the recipient of a fellowship award from BBSRC or from RCUK.

Applications may also be accepted from BBSRC Co-Is on large research grants (Strategic Lolas or equivalent) at the discretion of the International Relations Unit. In addition to the above criteria applicants should note that:

- The associated BBSRC grant **must** have started before the date of application and must **not** have expired before the start of the award.
- The presence of a BBSRC studentship award or BBSRC funding within an academic department does **not** confer eligibility for these awards.

REPORTING REQUIREMENTS

All Grant Holders must use Researchfish (<https://www.researchfish.com/>) to record key findings and specific outputs from their grants.

Grant Holders must report outcomes on an regular basis for all current grants and BBSRC will monitor submissions to ensure that acceptable levels of information are being provided into Researchfish.

Detailed information on Researchfish can be found at <http://www.rcuk.ac.uk/research/researchoutcomes/>.

The success of each ISIS visit will be measured against the following criteria:

- Completion of the objectives set out in the application.
- The added value to BBSRC science.
- The value of the developing partnerships and whether the ISIS visit has led to further external funding opportunities.
- The value to wider UK international Science, Engineering and Technology (SET) objectives.
- The production of further grant applications and/or awards to BBSRC.

BBSRC may ask for further details of the visit for publicity purposes.

Data protection regulations

BBSRC will use information provided in the application for processing the proposal, the award of any consequential grant, and for payment, maintenance and review of the grant. To meet the Research Councils obligations for public accountability and the dissemination of information, details of awards may also be made available on the Research Councils' websites and other publically available databases, and in reports documents and mailing lists.
