

# BBSRC Knowledge Exchange and Commercialisation Seminars

Supporting the delivery of:

- *events aimed at engaging researchers and knowledge exchange and commercialisation (KEC) professionals in discussions around KEC best practice and how this leads to economic and societal impact*
- *events that provide a platform to facilitate KE around a particular topic relevant to BBSRC funded research and BBSRC strategic priorities.*

## Audience/participants

Academic staff, postdoctoral researchers, university business development staff, knowledge exchange professionals, technology transfer specialists, KTP advisers, patent lawyers, representatives of life sciences businesses.

## Information

- Eligibility: Institutes strategically funded by BBSRC and HEIs
- Up to £2,000 funding towards the cost of the seminar

## Possible topics for discussion:

- Case studies of practical approaches for working with businesses
- Research organisation strategy and policies surrounding intellectual asset management
- Practical and flexible approaches to achieve impact:
  - Effective management of intellectual assets in the biosciences
  - Spin-out/licensing/consultancy/collaborative R&D
  - Open innovation
  - Social enterprise
- BBSRC support and funding mechanisms for KEC
- Networking and sharing of best practice
